Great Hall
New York, NY

Words That Heal

**My Transformative Journey
Through the Analytic Process**

Ernest Brod, *Presenter*

Effective psychoanalysis will transform the patient and the analyst. Sometimes the healing is magnified in gratifying ways.

In Ernest Brod's case, the benefits of his treatment extended not only to his family and friends but also to the several thousand others who, over more than 30 years, have attended the programs he arranged at Brooklyn Seminars in Modern Psychoanalysis.

Ernest Brod is a Trustee of the Center for Modern Psychanalytic Studies and the Director of Brooklyn Seminars in Modern Psychoanalysis. In his day job, he is Managing Director of Global Investigations and Intelligence at Alvarez & Marsal. A Holocaust survivor who was trained as a lawyer, he has learned the importance of words for survival and for success and happiness in life.
